"THE SHOCKING MISS PILGRIM"

MADRAS, Aug. 15.

Twentieth Century-Fox's Technicolor musical "The Shocking Miss Pilgrim", costarring Betty Grable and Dick Haymes will be shown at the New Globe from to-day. Set against the colourful background of Boston in the 1870's the picture unfolds the saga of America's first "female typewriter" who stormed the rock-ribbed citadel of the American business office—heretofore a strictly male domain into which no respectable girl would dare poke her nose. It remained for Miss Cynthia Pilgrim, armed with the first typewriter and business college diploma, to take that daring step with results that set prim Boston on its ear and catapulted her handsome, young boss into a world of romance he had never known.

"DAKOTA"

The Republic film "Dakota", which opens at the New Elphinstone to-day, tells a story of Western America of the pioneering days. John Wayne portrays John Devlin, a rough-tough, taciturn cowhand and rancher, who elopes from Chicago to Dakota, with his young bride, Vera Hruba Ralston. He believes that the new found territory will prove advantageous, but runs into a band of crooks who plot to drive the ranchers from their homes and blame the raids on the Red Indians.

"ARABIAN NIGHTS"

P. R. Productions' musical "Arabian Nights", featuring Kannan Devi, Nawab, Robin Mazumdar and Molina will be shown at the Star Talkies from to-day. The story is set against the background of fabulous Baghdad.

AMERICAN MARKETS

NEW YORK STOCK EXCHANGE

NEW YORK, Aug. 13.

Further recovery tendencies brought early modest gains with occasional enlargement of activity, but the market subsequently quietened and an irregularity developed with prices recording mixed changes covering one point. Leading Motors, Films, Food Machinery and Specialities were the best supported issues thoroughout the morning. Minings, particularly gold shares, displayed early firmness, but softened when the United States Treasury denied rumours of a gold price increase. The averages were: Industrials, 179.86 and Rails, 48.27. Prices fluctuated narrowly as the irregularity continued in afternoon, dealings. Trading was sluggish with many operators awaiting fresh developments including discussions starting in Washington next. Monday on easing the terms of the American Loan to Britain. Motors were still well supported despite sporadic shutdowns in some midwest plants due to the heat wave. Rubbers were also steady with the exception of Goodrich Co. But the softness therein was latterly relieved somewhat with the C. I. O request to the local Unions to cancel the strike scheduled to start on Thursday after the Company had complied with the demand for new contract bargaining on a company-wide basis. Late dealing confirmed the market's position of fraction to one point gains to unchanged. Market closed irregular.

NEW YORK COTTON

Cotton opened steady, 3 to 8 points higher, and the small initial gains encountered selling based on anticipatory hedges and rain reports from Texas. Prices then rallied under the eadership of the near October option influenced by covering in connection with Commodity Credit Corporation purchases of raw cotton for Japan, with other buying probably attributable to technical considerations. The belief that rains in Texas were so far insufficient to break the drought further aided sentiment. When support had been satisfied, sagging tendencies developed owing to lack of follow-up buying which reduced the interim gains about 10 points, though advances averaged about 15 point at noon. The pre-noon drifting tendency continued during early afternoon on scattered profit-taking and hedges. Prices then suddenly rallied on increased trade demands and some price-fixing operations which found sellers extremely reluctant with offerings. Sentiment was further aided by claims of insufficient rains in Texas and the market closed firm 28 to 46 points higher. Sales were estimated at 130,000 bales.

The prices are:

October 32.75/75; December 32.39/42; January 32.20 Nominal; March 32.30/30; May 31.95 Nominal; July 31.73 Nominal; October 28.19 Nominal; December 27.66 Nominal; Middling spot 34.95; October: Highest 32.78 at 10/45 a.m.; Lowest 32.45 at 10/07 a.m.

NEW ORLEANS COTTON

NEW ORLEANS, Aug. 13.

October 32.71/71; December 32.36/37; March 32.30/30; May 31.94/94; July 31.11 bid, 31.13 asked; Middling spot 34.45.
