SORABJEE COWASJEE & Co., 123, Meadows Street, Fort. A18789

FIGHT AGAINST SCARCITY
Labour Minister On Workers' Role
NEW DELHI, September 5: Mr. Jagjivan Ram, Labour Minister, Government of India, broadcasting from Delhi tonight, appealed to the workers to realize their new responsibilities devolving on them in the wake of their new-found rights and to step up the country's production.
The country, he said, was passing through a grave crisis, in such a national emergency each farm and factory was a sector of the home front and each worker was a soldier on whose vigilance, industry and honest work depended the outcome of "our fight against scarcity and high prices".
The Labour Minister advised the employers to treat the workers well, create a sense of dignity in them and keep them happy.
Mr. Jagjivan Ram explained the implications of two important pieces of labour legislation passed by the Indian Parliament in its current session—the Coal Mines Provident Fund and Bonus Schemes Act, 1948, and the Factories Act, 1948.
"It was for the first time in India," he said, "that provident funds were sought to be set up under law, and probably, the first time in the world that a provident fund had been instituted for workers, most of whom were casual labourers. The scheme will, in effect, change the status of the mine worker from a pauper to a man of some means, with something to fall back upon, when his earnings ceased."
The Factories Act, 1948, is a comprehensive enactment, which consolidates and amends the law regulating labour in factories. It comes into force in April next. The principle underlying this measure is that no one should employ any worker on any manufacturing process without ensuring his safety, health and welfare. The Act places the onus of compliance squarely on the occupier of a factory, the person who has ultimate control over its affairs.—A.P.I.

DELHI HOUSING SCHEMES FOR REFUGEES
"C.R.'s" Inspection Tour
NEW DELHI, September 5: His Excellency the Governor-General inspected three housing schemes of the Relief and Rehabilitation Ministry and around Delhi.
The Governor-General, who was accompanied by Mr. Mohanlal Sakseena, Minister for Relief and Rehabilitation and Development, and the regional training centre at Nizamuddin.
The Governor-General and the party then saw the adjoining housing scheme where an army unit with bulldozers had almost completed leveling up the ground in preparation for the construction of 19 small houses, 31 large houses and 16 shops in addition to a school and a dispensary which will be built in this area.
The Governor-General also visited the New Delhi northern extension area near Pusa where considerable progress has already been made with the construction of 2,100 middle-class houses.
The party then proceeded to the site of the Shadipur expansion scheme where an area of 462 acres will be allotted in 380 small-sized plots, 65 large plots and 260 shops.
Pakistan Relief Measures
KARACHI, September 5: The Central Committee of the Qaid-i-Azam Refugee Relief Fund at its meeting held on September 3, sanctioned fresh allocations for refugee relief. The most important of these relate to the preparation and procurement of blankets and warm clothing, for which a total of Rs. 50 lakhs has been sanctioned. Monetary allotments have been made to the following areas under their own arrangements for purchase or production: East Bengal Rs. 50,000; Baluchistan Rs. 1,00,000; Bhawalpur Rs. 1,00,000 and Khairpur Rs. 10,000.
For West Punjab and Sind and North-West Frontier Province the resources of the Central Committee and the Provincial Committees will be pooled for the work of purchasing and making of supplies.
The Secretary of the Central Committee will shortly visit Bombay to arrange for the purchase and urgent despatch of course cloth. A sum of Rs. 25,00,000 has been sanctioned for the purchase of the maximum number of blankets and warm garments. In addition to supplies available in Pakistan, telegraphic inquiries have been sent to the U.K. and the U.S.A. and a special sub-committee of the Central Committee has been formed to look after the making of coats and the purchase of blankets and warm clothes. Other allocations made include Rs. 10,000 to the Pakistan Red Cross Society and Rs. 3,000 for relief of destitute refugee school students in Karachi.

PANDIT NEHRU TO VISIT BRITAIN

Dominion Premiers' Conference
NEW DELHI, September 5: With Pandit Jawaharlal Nehru's visit to the U.K. for the Dominion Premiers' Conference being now almost finalised, the question of awarding him the title of "Prime Minister of India" is assuming greater importance, and urgency, according to informed quarters, here.
Apart from sentimental considerations, it is pointed out, the question raises a number of practical difficulties. The preamble to the draft constitution of India emphasises "a sovereign democratic republic". Thus, it is stated, the main question is one of determining the relationship between this democratic republic and a Dominion in the British Commonwealth of Nations.
Both in Europe and in Latin America are to be found a number of "independent republics" completely dominated by one or the other of the big Powers.
"INDEPENDENT REPUBLIC"
So far as India is concerned there are two trends of opinion, namely, India already being free and independent, first, whether it is necessary or desirable for her to have such a constitution as to conduct her affairs in a manner which would place her within the category of "independent republics", and secondly, whether it is desirable for her to regulate her affairs in a manner which would yield the maximum benefit out of co-operation with the Commonwealth set-up.
It is, however, pointed out that in view of the declared policy of the Congress and past pronouncements by eminent national leaders, India's decision to assume the status of a sovereign democratic Republic would stand. This, however, would not preclude or prejudice India's wholehearted co-operation with the United Kingdom and the Dominions for mutual advantage.
Judicial approval is likely to be, according to observers here, one of inter-dependence within the British Commonwealth for the mutual benefit of the countries concerned. The extent of India's co-operation, both in the spheres of economic development and defence, would depend on reciprocity.—A.P.I.

IMPLEMENTING NEW PAY SCALES
I.N.T.U.C. Urge Inquiry
NEW DELHI, September 5: The adjourned meeting of the Working Committee of the Indian National Trade Union Congress, which met today under the presidency of Mr. Hariharanath Shastri, passed a resolution recommending to the Government of India to appoint a committee to examine and decide speedily and satisfactorily all questions arising out of the implementation of the Pay Commission's recommendations.
The resolution says that it has been brought to the notice of the Working Committee of the I.N.T.U.C. that the implementation of the Commission's recommendations in the Centrally administered industries and undertakings has given rise to several anomalies and consequent dissatisfaction arising out of wrong classification of employees and misadjustment of scales and grades.
The Committee has received with satisfaction Mr. Justice Rajadhyaksha's award on hours of work, leave and other questions affecting Railway labour and has requested the Government to take steps to without delay.
The Committee notes with satisfaction the earnestness of the Government of India in trying to tackle the problem of inflation in the country and hopes the policy of drift pass by the Government will now definitely come to an end.
"The success of any drive towards de-inflation will," the resolution adds, "depend on the extent of its preparedness among all sections of the community to undergo sacrifices which should, as far as possible, be related to the capacity of different persons and groups in the country."

Madras Zamindari Bill
MADRAS, September 5: The Zamindari Abolition Bill, as amended by the Select Committee, was introduced in the Madras Assembly yesterday by Mr. Kala Venkatarao, Revenue Minister, and will be considered by the Assembly from September 8.
The Bill provides for the repeal of the Permanent Settlement and the acquisition of the rights of estateholders in the Province by payment of compensation. The estates will be converted into "ryotwari" lands before they are acquired by the State. The total compensation payable to estateholders under the legislation will amount to Rs. 12 crores.
Under the Bill, as modified by the Select Committee, ryots will have to pay arrears of rent to Zamindars for only the last two years, the balance being written off.—A.P.I.

Karwar Election Petition
KARWAR, September 5: The District Judge of Karwar, Mr. R. H. Mirajkar, has dismissed the application of Mr. Ramu Gudi Nalk for setting aside the election of Mr. Narahari N. Borkar to the Karwar Municipality.
The applicant had moved the court to set aside the election of his rival on the grounds that valid votes recorded in his favour were rejected as ambiguous by the Returning Officer and that the successful candidates had secured votes by personation.—A.P.I.

All 14 passengers and the crew of seven escaped uninjured on Sunday when an Australian flying boat of Gantas Airlines crashed and sank on the coast of Java. The aircraft was on its way from Sydney to Britain.

CHINESE WAR LORD KILLED IN FIRE
Death On Soviet Ship
MOSCOW, September 5: Marshal Feng Yu-hsiang, famous Chinese war lord, better known as the "Christian General", and his daughter died in a fire which broke out on board the Soviet ship, motorship "Tobacco", between Batum and Odessa at the end of their journey from New York, according to the Soviet News Agency, "Tass", in a report from Odessa.
An inquiry is being held into the fire which was believed to have started among some cinema films on board.
The ship, which was detained in quarantine in the U. S. A. when her captain refused to allow health authorities fumigate her against rats, left New York on August 1, and had taken 2,000 Armenian repatriates from Cairo to Batum.
Marshal Feng Yu-hsiang was expelled from the Kuomintang, the Chinese Government Party, last January, for having defied Generalissimo Chiang Kai-shek's order to return home from the U.S.A. where he had been on a Government mission. Born in 1880, Marshal Feng Yu-hsiang attended the Peking Military Academy of Tientsin and soon became a nationally recognised figure.
In 1926, when defeated in a war with Manchurian war lord, Gen. Chang Tso-lin, Marshal Feng Yu-hsiang took refuge in Russia, where he became more Communist in his ideas. Later he allied himself with northern militarists in the 1930 revolt against Nanking and set up a northern Government in Peiping, Heuter.

New Chinese Bond Issues
NANKING, September 5: The Chinese Government will float, on October 1, nearly 1,130,750 worth of gold yuen bonds to replace the earlier issues in British and United States currencies.
The Government, announcing this today, stated the new bonds would carry an annual rate of interest of 6 per cent, payable semi-annually, and would be divided into three categories.
All the new bonds will be redeemable from the first payment of interest. They will replace the British sterling and United States dollar reconstruction bonds of 1910, the United States Victory bonds of 1910 and the United States short-term treasury notes of 1947.—Heuter.

Linguistic Province Body
MADRAS, September 5: The Linguistic Province Commission appointed by the President of the Constituent Assembly, the S. S. and C. and the Government of Madras this evening by plane from Vizagapatnam.
Mr. S. K. Dey, Chairman of the Commission, stated that they would stay in the City for six days, during which they would meet the Ministers and representatives of various linguistic areas in the Province.—A.P.I.

Draft Constitution Of India

HINDI VERSION PUBLISHED

NEW DELHI, September 5: The official Hindi translation of India's proposed constitution was published here this morning. The 147 page translation has been prepared by a Committee appointed by the President of the Constituent Assembly and consisting of Mr. G. S. Gupta, Speaker C. I. Assembly, Dr. Bhabu Virsa, Pandit Hari Bhau Upadhyay, Pandit Kamalapati Tripathi and Dr. Jagadendra.

Addressing a press conference in this connection, Mr. G. S. Gupta, Chairman of the Translation Committee, said that the translation had been prepared in such a manner that at a later stage it might take the place of the English version of India's constitution as the only authoritative version.

When the Constituent Assembly of India meets here in October, it is understood that a resolution will be moved in the Assembly suggesting the adoption of India's Hindi translation also by the Assembly along with the English version.

The passing of the constitution in two languages, it is pointed out, will give legal validity to both English and Hindi drafts and at a later stage, if the Central Government so desire, the Hindi draft could replace the one in English.—A.P.I.

Tibet

Life without tea, and a lot of it, would be unthinkable for most Tibetans. These hardy people live normally at an altitude of more than 10,000 feet and are engaged, mainly in strenuous outdoor tasks—agriculture, cattle droving, portage, etc. Centuries of practice have taught them to rely upon their own special variety of brick tea to combat both the long and bitter cold of winter and the short but intense heat of summer. In fact, the distances covered by Tibetan drovers or porters are measured not in miles but in tea stops. Tibetans carry on their carefree existence very much as their ancestors did centuries ago—with tea as one of their few joys and relaxations.

the universal beverage
