## Extension Of Prohibition Programme In Madras

### GOVERNOR-GENERAL'S MESSAGE TO PROVINCE

MADRAS, October 2.

"HOPE the men and women of the province will be wise and take advantage of the great reform which the Government have introduced, notwithstanding many difficulties pointed out to them by their colleagues in Delhi," says the Governor-General, Mr. C. Rajagopalachari, in a message to the Minister for Prohibition, Madras, on the extension of prohibition to the whole of the province.

Mahatma Gandhi's birthday," the Governor-General said, "the mier of Madras congratulating the Government of Madras. entire province of Madras will be under the total prohibition law enacted in 1937.

INFLATION ARGUMENT

"Some people have said", the Governor-General added, "that there is an excess of money in the country, that prices are, therefore, soaring high and that as a remedy we should retain the sale of alcoholic liquors and tap the excess money in that way. This appeared to me a strange and crue attitude. There are many more and better ways of withdrawing excess earnings "Instead of taking only the poor illiterate classes through drink shops the Madras Government levy a tax on every person through the general sales tax whenever he buys anything whatso-ever, that is to say, there is a levy on the purchasing power of everybody. This is more equitable than taxing only the sale of one particular article which is consumed by a section of the people who are not able to find joy in life except through imbibing toddy or arrack.

### Steps To Relieve **Distress**

From Our Staff Correspondent AHMEDABAD, October 1: As may be expected with the poor rainfall received so far, there is an almost complete failure of crops in large areas of Viramgam, Ranpur and Dhandhuka Talukas, says Mr. P. N. Damry, the Collector of Ahmedabad, giving his impressions of his recent visit to the scarcity areas,

Viramgam Taluka is the focality to the north and east of Virangam Town and particularly the Nalkantha area right up to the borders of the Dholka and Sanand Talukas. The Local Board has undertaken a large number of tank digging works which will provide labour to needy agriculturists for at least a month. Instructions have been given for the work to be started at various places.

He adds that the area worst affected in

The District Local Board has, in all, a programme of 28 tank works in Viramgam Taluka which will provide adequate relief as a short-term measure. For long-term works besides the Mandal drain work, it is proposed to take up road work in the taluka through the P.W.D. Arrangements have also been made for the local distribution of fodder and a large amount of tagai loans are being

given to agriculturists both for the improvement and construction of wells and for the purchase of fodder.

WATER SCARCITY As regards Dhandhuka Taluka, the Collector says that the area worst affected is the Bhal, normally a rich wheat producing tract. Here the greatest difficulty is in respect of drinking water. Small pits are being dug in the beds of tanks from which sparse supplies of drinking water are obtained with great difficulty. Unfortunately this is not an area where any sort of well can be sunk with success.

The important town of Dholera is particularly hard hit in respect of drinking water but fortunately, supplies have been 'rept in a tank bed about a mile from the town and arrangements are being made to supply water from this source. Here also the Local Board has already embarked upon both short and long-term relief works. In addition, the P.W.D. will very shortly be taking up earth works on the Dhandhuka-Ahmedabad road which runs through the Shal tract. Special attention has been paid to the provision of fodder to this area, besides distribution of tagat.

road work which will supply labour for the affected areas. With regard to Sanand and Dholka Talukas, it is proposed to take up two very important roads. In Ghokhomahal so far Rs. 1,62,650 have been distributed by way of tagai

for wells and fodder. In addition Government have been moved to procure large quantities of grass for this district. It will be seen, therefore, that all possible steps have been taken to give as much relief as possible to the afflicted villagers.

CONGRESS COMMITTEE MEETS The Gujerat Congress Committee views with great concern the famine conditions in several parts of Gujerat particularly in Ahmedabad, Broach and part of Surat District where prompt relief measures are considered absolute-
