THEORY

An HRC fuse link is the heart of an electrical system—strong yet sensitive. It should offer maximum safety value at a reasonable price without sacrificing performance, quality and efficiency.

STANDARD HRC fuse link -100% secure safety now at a most economical price because our technological breakthrough raises the standards and lowers our prices.

And the Standard

- Short circuit protection greater than 80 KA Accurate time current characteristics without any deterioration.
- 'STANDARD' HRC fuse links incorporates well designed and engineered elements for precision performance and minimum watt loss
- Pre-tested raw materials guarantee perfect performance.
- Strong ceramic bodies tested again and again for
- strength by the Bunk testing machine.
- Conforms to IS specifications.
- Wide range from 2 Amps to 500 Amps.

Rs. 3-cr. export order for Indian pens

By A Staff Reporter

BOMBAY, July 21: The Indian pen industry has booked export orders worth Rs. 3 crores per annum for the next three years at the recently held "Write Show" organised by the Washington-based Writing In-struments Manufacturers' Association Inc. (WIMA).

India was among the 18 foreign countries represented at the show which was attended by 500 WIMA members. India fielded the largest. delegation with 21 prominent leaders and pioneers of the pen industry. The Indian delegation led by Mr. Chandrakant Sheth, former chairman, Plastics and Linoleum Export Promotion Council, negotiated the preliminaries for the setting up of a joint venture in India for a writing instrument unit and a dyestuff unit.

India's production of writing materials which stood at Rs. 80 crores per annum is low compared to the total world production of over Rs. 3,000 crores. The delegation felt that Indian pens had a good scope in foreign markets, looking to the quality and the
