INDIA'S DRAFT **CONSTITUTION**

Dr. Prasad Satisfied With Progress

NEW DELHI, June 21: Dr. Rajendra Prasad, President of the Constituent Assembly, stated today that he was satisfied with the progress made by the Assembly so far in the second reading stage of the would be possible to pass the second reading by August 15, but that would depend upon the success of the conference of provincial ministers which was contemplated.

Referring to the effect of the introduction of adult franchise on the political equilibrium. Dr. Prasad said that the people would certainly find themselves in difficulty in choosing their representatives as they would be subjected to conflicting propaganda by various parties. He supposed, however, that propaganda would not affect the great bulk of the voters under adult franchise and loyalty to parties would perhaps carry more weight with them.

Dr. Rajendra Prasad observed that all laws which infringed any of the fundamental rights would automatically cease to have operation. One of the first things to be done as soon as the constitution was passed was to adapt all the existing laws, so as to bring them in conformity with the constitution and there would have to be some legislation also to give effect to several of the provisions of the constitution. "All the laws relating to abolition of untouchability will be enforced just as any other laws are enforced," he added.—P.T.I.
